

Customer Case Study

This Government Department is responsible for the procurement of Platforms and Through Life Support of over 600 projects for the Ministry of Defence (MOD). They cover all areas of Sea, Land and Air and provide parts, spares and all of the equipment required by the UK Armed Forces. The contract stands as the largest Consultancy contract awarded by the MOD.

Looking for an Integrated Logistics partner, This government department's main focus is to ensure that the Procurement and Through Life Support of parts and equipment are purchased to budget and are delivered on time in full.

This can be a complex requirement due to the challenging environments that the Armed Forces work in. TVS were picked to be a partner because of our experience in transformation projects and our ability to deploy suitably qualified and experienced personnel.

THE TVS SOLUTION

- Integrated Logistics Support element planning
- Supply support planning
- Inventory Improvement Programming
- Expert advice on strategic procurement and demand forecast planning
