# WHY CHOOSE TVS SCS PACKAGING SOLUTIONS?

## Transforming Packaging for Smarter Supply Chains

We deliver sustainable, technology-driven, and customized packaging solutions that enhance efficiency, reliability, and cost optimization across the supply chain. Our focus is on providing innovative solutions that reduce damage, minimize waste, and ensure safe transportation while prioritizing environmental sustainability.

## Comprehensive End-to-End Responsibility

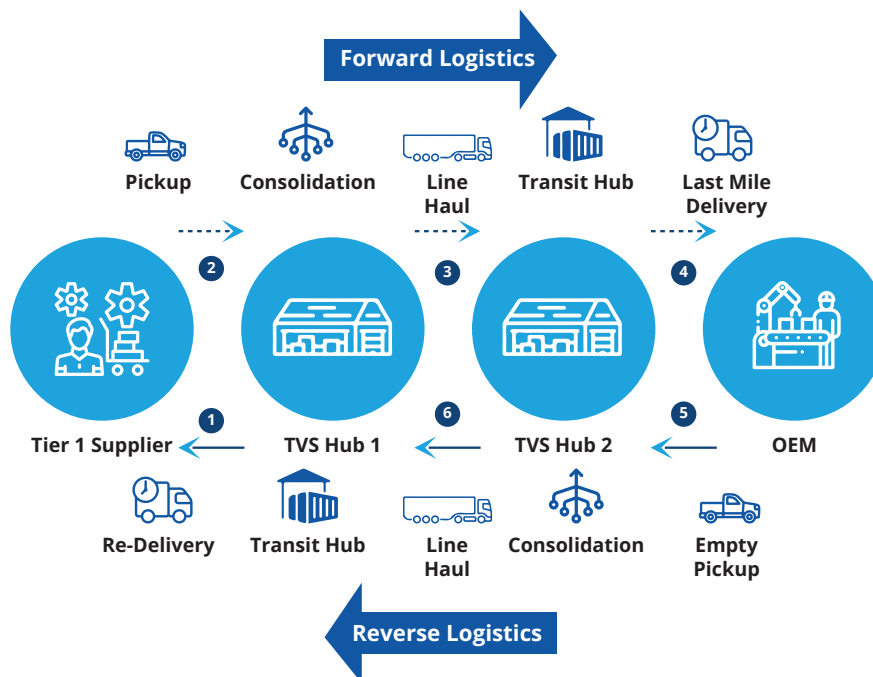

We take full responsibility for your supply chain, offering seamless, reliable, and cost-effective packaging solutions from start to finish. Our value-added services include custom branding, compliance support, and reverse logistics, making us your trusted end-to-end partner in packaging.

With a strong focus on logistics optimization, we maximize truck efficiency and container utilization to reduce costs and environmental impact. By streamlining load capacity and minimizing empty miles, we enhance overall supply chain performance.

### Key Benefits:

- ▶ Optimize logistics and reduce costs.
- ▶ Streamline transportation, ensuring safe and efficient delivery.
- ▶ Provide end-to-end accountability, ensuring peace of mind.
- ▶ Enhanced environmental sustainability.

### Returnable Packaging

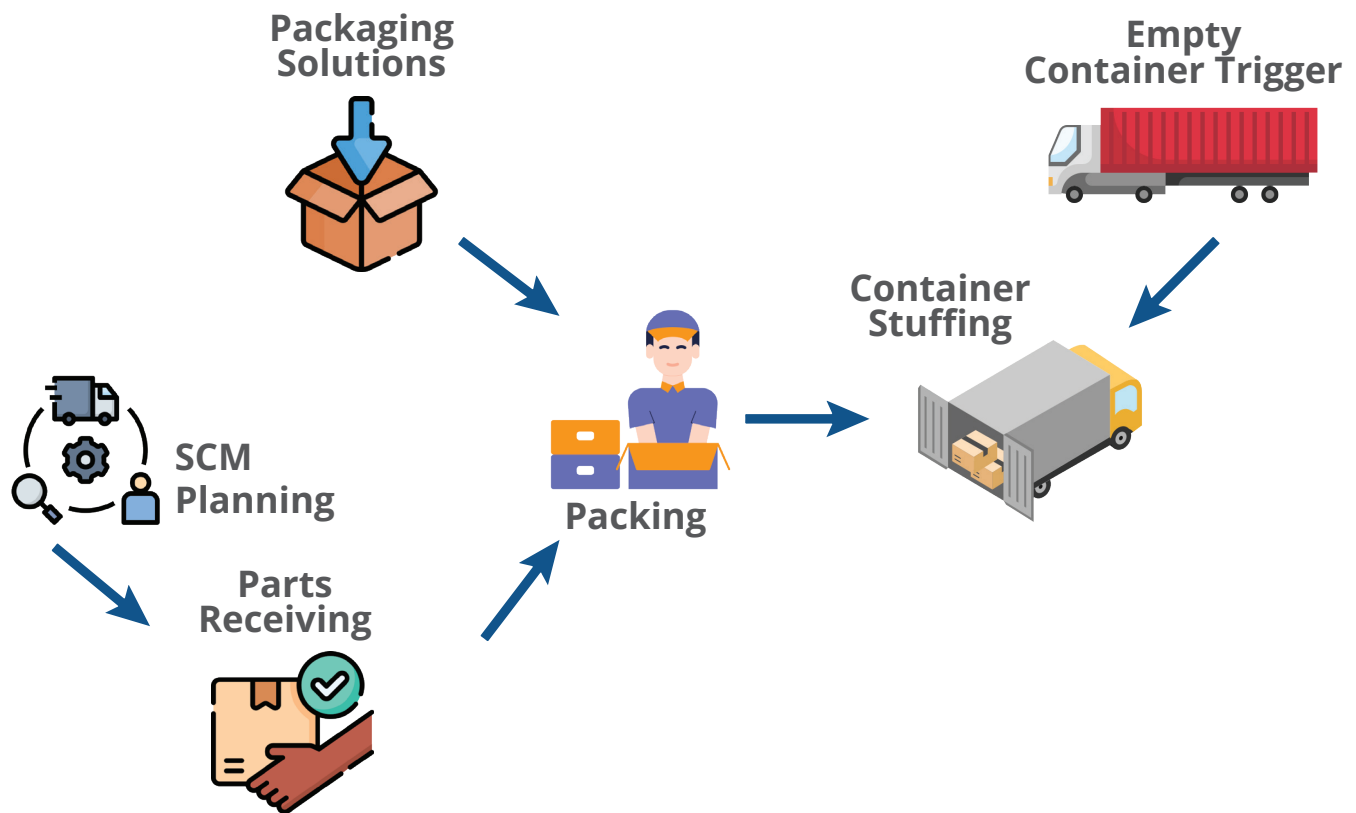

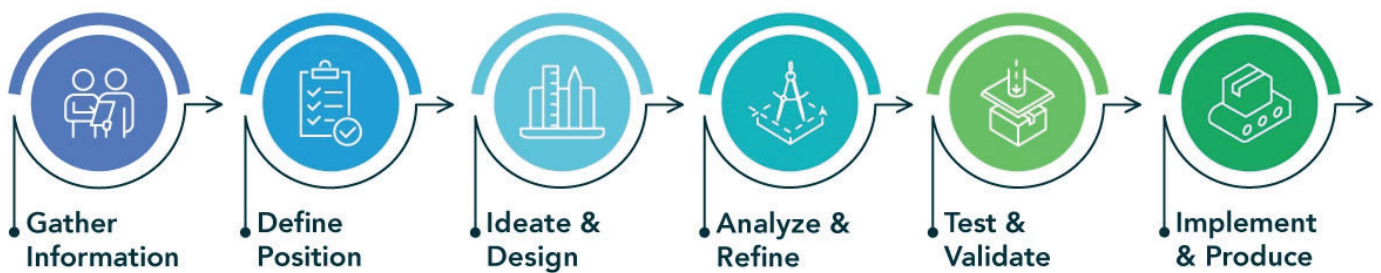

## Innovative Process-Driven Design & Deployment

At TVS SCS, our approach to packaging design is based on a thorough process study that creates tailored solutions for your unique needs. Our commitment to continuous improvement ensures your packaging always aligns with industry standards and is scalable based on your changing requirements, driving operational efficiency and reducing waste.

### Key Benefits:

- ▶ Customized solutions based on rigorous assessments.
- ▶ Continuous improvements to ensure efficiency at every step.
- ▶ Simplified logistics and enhanced process consistency.

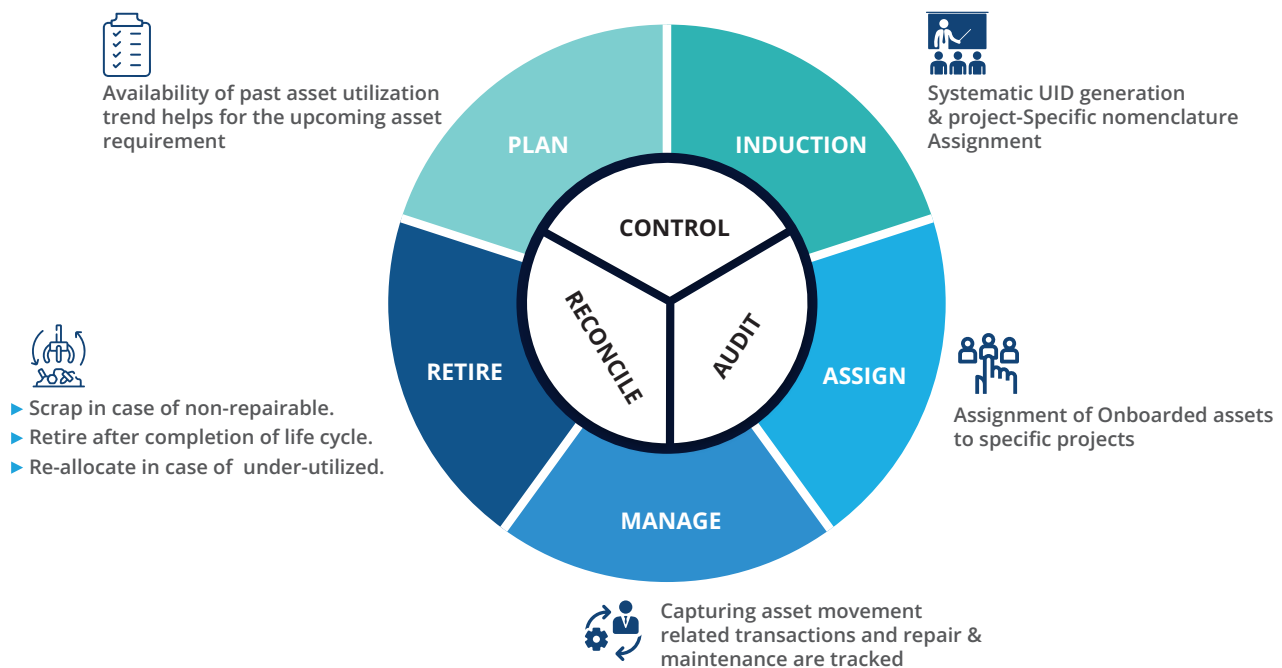

## Seamless Asset Tracking Visibility

We leverage cutting-edge asset tracking systems to monitor and manage packaging across the supply chain. Web-based tracking and data-driven insights ensure your assets are always in the right place, enhancing planning and inventory management.

### Key Benefits:

- ▶ Online or web-based visibility of assets for better planning.
- ▶ Improved asset management, reducing risk of loss.
- ▶ Timely deliveries and reduced delays for smoother operations.

## ASSET MANAGEMENT IN ASSET TRACKING SYSTEM

## Versatile, Material-Agnostic Solutions

Our packaging solutions cater to diverse industries, utilizing eco-friendly, durable, and sustainable materials. We are material-agnostic, offering flexibility with options in plastic, metal, and wood. Whether reusable or expendable, we provide solutions that meet specific requirements while prioritizing sustainability. By focusing on recyclable materials, reducing waste, and promoting circular economy principles, we help businesses minimize their environmental footprint without compromising performance or reliability.

### Key Benefits:

- ▶ A wide range of materials to suit different needs.
- ▶ Cost-effective options for reusable and expendable packaging.
- ▶ Flexibility to meet specific industry requirements without compromise.

# SUSTAINABLE PACKAGING SOLUTIONS

At TVS SCS, we provide customer-focused, integrated packaging solutions designed to meet the diverse needs of various industries. Our solutions are the result of extensive process studies, customer requirements assessments, and co-creation. We prioritize durability, eco-friendliness, and ease of use to ensure optimal supply chain performance.

## Returnable, Reusable and Sustainable packaging.

### Reusable Plastic:

- Foldable Large Container (FLC)
- Pallet Lid Sleeve (PLS)
- Foldable Small Crates (FSC)
- Plastic Pallet & Top Lids
- Thermo-forming Trays
- PP Partitions & PP Boxes

### Reusable Metal:

- Reusable Steel Rack
- Foldable Metal Container
- Customized Line Feeding Trolleys
- Storage Cage Pallets

### Expendable Options:

- Cartons for Aftermarket (SPD)
- Heavy-Duty Cartons for Exports
- HT Wooden Pallets
- HT Pallet Collar
- Nailless Box
- Expendable Steel Racks (ESR)
- Protective Packaging
- Strapping (Lashing, PET, PP)

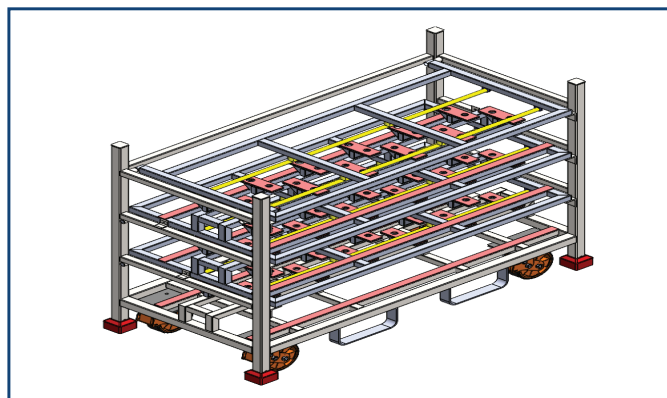

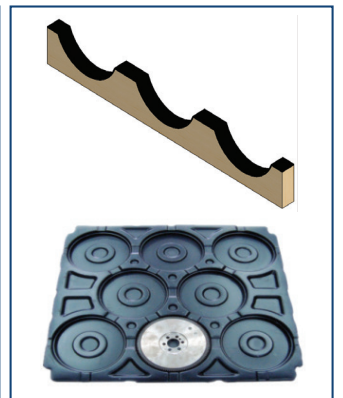

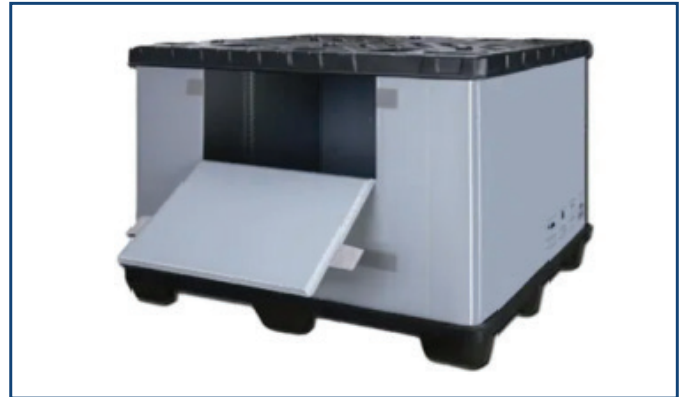

### Common Footprints for Multiple Parts:

- Space-saving storage solutions
- Optimized vehicle vanning
- Reduced inventory risks and adaptability to part model changes

## Integrated Approach:

Our packaging assets are designed to enhance supply chain efficiency while minimizing damage during transit. We ensure a single-window responsibility, allowing you to focus on your core operations while we manage your packaging needs from the production line to the end customer.

# SUSTAINABLE PACKAGING SOLUTIONS

# ADVANTAGES OF PARTNERING WITH TVS SCS

## Cost Reduction:

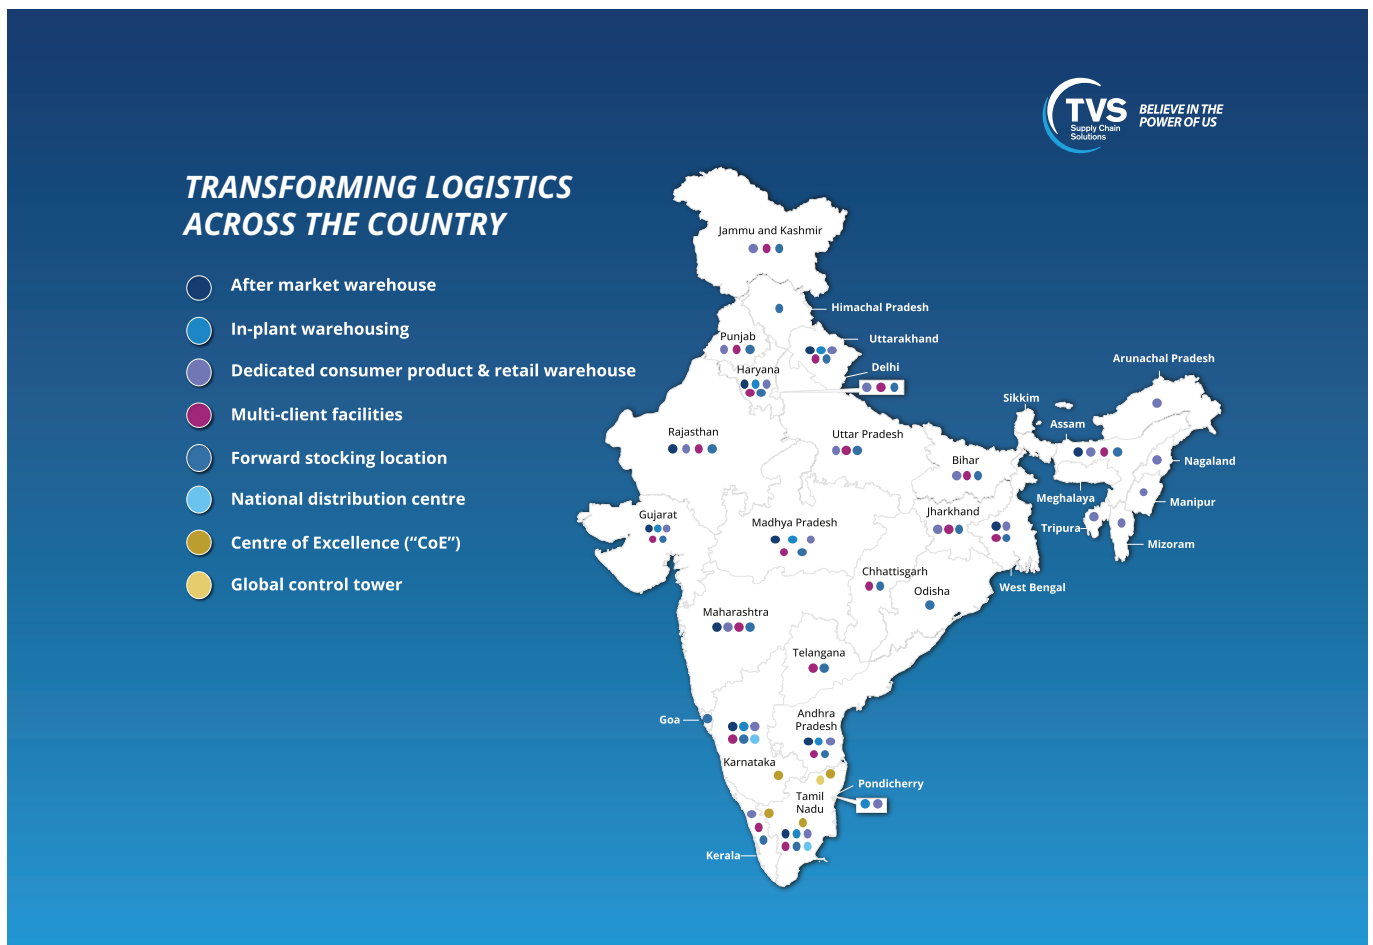

Our solutions help you optimize logistics, reduce waste, and minimize transit damages, resulting in cost savings at every stage of the supply chain. Our smart packaging approach focuses on enhancing operational efficiency, ensuring safe transportation, and lowering overall packaging costs.

## Sustainability:

We are committed to minimizing packaging's environmental impact through eco-friendly materials, reusable solutions, and sustainable design. Our approach aligns with circular economy models and Sustainable Development Goals (SDGs), reducing waste and carbon footprints while promoting responsible consumption and production. This makes us the ideal choice for businesses focused on sustainability.

## Nationwide Presence:

With our extensive network and nationwide presence, TVS SCS offers reliable and cost-effective solutions across India. Whether you are based in urban centers or remote areas, our comprehensive support network ensures seamless service delivery across the country.
